

High-Tech Chelated Mineral Chromium1000 Supplement

Livestock, Poultry and Aquaculture Feed Supplement

Chromium

Chromium is an essential micronutrient for livestock, poultry and aquatic species. The role of this element in improving metabolism and maintaining a high level of performance in stressful conditions is already proven.

High-Tech Chromium1000 Supplement

High-tech chelated mineral chromium1000 supplement is a unique product containing chelated chromium for livestock, poultry, aquatic species and companion animals. This supplement is synthesized and produced based on Chelate Compounds technology.

This technology is patented in the United States Patent and Trademark Office (USPTO). The manufactured supplements based on this technology, due to their unique structure, enjoy better absorption rate than other available chelated and mineral supplements.

- ◆ Adding this supplement to diet maximizes the performance & production quality of herds and prevents metabolic disorders & mortalities, even under stressful conditions.
- ◆ One kg of this supplement contains 1000mg (1000 ppm) chelated chromium.
- ◆ This supplement is in powder form and mixable with feed/concentrate. It is packaged in 20-kg bags.

Direction for Use

Consumption Dose for Livestock, Poultry, Aquatic Species and Companion Animals:

- 400g of this supplement should be mixed with every metric ton of feed to supply 0.4ppm chromium in diets.
- 200g of this supplement should be mixed with every metric ton of feed to supply 0.2ppm chromium in diets.

Notes

- ✓ This product must be kept out of reach of children, away from direct sunlight, in a dry place, at room temperature and in the original bag.
- ✓ The expiration date is 2 years after production if the bag remains closed, and 12 months after it is opened.

Cow's Weight (kg)	Recommended Dose (g/head)
Under 200	2
200-400	4
400-600	6
Over 600	8
