

# High-Tech Chelated Mineral Magnesium Supplement

## Livestock, Poultry and Aquaculture Feed Supplement

### Magnesium

Magnesium is an essential element for livestock, poultry and aquatic species. This element plays a role in metabolism & proper muscle/skeletal functioning system. As a coenzyme, magnesium is vital for the efficient metabolism of carbohydrates and lipids, and is also important for the activation of a large number of enzymes, especially those involved in phosphorylation reactions. This element is essential for bone formation as well.

### High-Tech Magnesium Supplement

High-tech chelated mineral magnesium supplement is a unique product containing chelated magnesium for livestock, poultry, aquatic species and companion animals. This supplement is synthesized and produced based on Chelate Compounds technology.

This technology is patented in the United States Patent and Trademark Office (USPTO). The manufactured supplements based on this technology, due to their unique structure, enjoy better absorption rate than other available chelated and mineral supplements.

- ◆ Adding this supplement to diet boosts the performance and welfare of herds to a great extent.
- ◆ One kg of this supplement contains 70,000mg (7%) chelated magnesium.
- ◆ This supplement is in powder form, soluble in water and mixable with feed/concentrate. It is packaged in 20-kg bags.

### Direction for Use

Consumption Dose for Livestock, Poultry, Aquatic Species and Companion Animals:

- 1430g of this supplement should be mixed with every metric ton of feed to supply 100ppm magnesium in diets.

### Notes

- ✓ This product must be kept out of reach of children, away from direct sunlight, in a dry place, at room temperature and in the original bag.
- ✓ The expiration date is 2 years after production if the bag remains closed, and 12 months after it is opened.
