

High-Tech Chelated Mineral Manganese Supplement

Livestock, Poultry and Aquaculture Feed Supplement

Manganese

Manganese is an essential micronutrient for livestock, poultry and aquatic species. This element activates enzymatic systems in cell metabolism and plays a role in collagen and bone formation. Manganese deficiency causes increase in the incidence of diseases and decrease in production.

High-Tech Manganese Supplement

High-tech chelated mineral manganese supplement is a unique product containing chelated manganese for livestock, poultry, aquatic species and companion animals. This supplement is synthesized and produced based on Chelate Compounds technology.

This technology is patented in the United States Patent and Trademark Office (USPTO). The manufactured supplements based on this technology, due to their unique structure, enjoy better absorption rate than other available chelated and mineral supplements.

- ◆ Adding this supplement to diet maximizes the performance & production quality of herds and minimizes the incidence of diseases & mortalities.
- ◆ One kg of this supplement contains 140,000mg (14%) chelated manganese.
- ◆ This supplement is in powder form, soluble in water and mixable with feed/concentrate. It is packaged in 20-kg bags.

Direction for Use

Consumption Dose for Livestock, Poultry, Aquatic Species and Companion Animals:

- 143g of this supplement should be mixed with every metric ton of feed to supply 20ppm manganese in diets.
- 286g of this supplement should be mixed with every metric ton of feed to supply 40ppm manganese in diets.

Notes

- ✓ This product must be kept out of reach of children, away from direct sunlight, in a dry place, at room temperature and in the original bag.
- ✓ The expiration date is 2 years after production if the bag remains closed, and 12 months after it is opened.
