

# High-Tech Chelated Mineral Phosphorus Supplement

## Livestock, Poultry and Aquaculture Feed Supplement

### Phosphorus

Phosphorus is an essential macronutrient for livestock, poultry and aquatic species. This element plays a central role in growth, bone formation and metabolic reactions. Phosphorus is effective in the formation of nerve tissues, fertility and reproduction, appetite and digestive activity. Deficiency in phosphorus causes disorder in all of these physiological mechanisms.

### High-Tech Phosphorus Supplement

High-tech chelated mineral phosphorus supplement is a unique product containing chelated phosphorus for livestock, poultry, aquatic species and companion animals. This supplement is synthesized and produced based on Chelate Compounds technology.

This technology is patented in the United States Patent and Trademark Office (USPTO). The manufactured supplements based on this technology, due to their unique structure, enjoy better absorption rate than other available chelated and mineral supplements.

- ◆ Adding this supplement to diet boosts the performance and welfare of the herds to a great extent.
- ◆ One kg of this supplement contains 170,000mg (17%) chelated phosphorus.
- ◆ This supplement is in powder form, soluble in water and mixable with feed/concentrate. It is packaged in 20-kg bags.

### Direction for Use

Consumption Dose for Livestock, Poultry, Aquatic Species and Companion Animals:

- 590g of this supplement should be mixed with every metric ton of feed to supply 100ppm phosphorus in diets.

### Notes

- ✓ This product must be kept out of reach of children, away from direct sunlight, in a dry place, at room temperature and in the original bag.
- ✓ The expiration date is 2 years after production if the bag remains closed, and 12 months after it is opened.
