

High-Tech Chelated Mineral Selenium2000 Supplement

Livestock, Poultry and Aquaculture Feed Supplement

Selenium

Selenium is an essential micronutrient for livestock, poultry and aquatic species. This element plays a crucial role in anti-oxidant system and is essential for growth, fertility and the proper function of immune system.

Bonza-Se2000 Supplement

High-tech chelated mineral selenium2000 supplement is a unique product containing chelated selenium for livestock, poultry, aquatic species and companion animals. This supplement is synthesized and produced based on Chelate Compounds technology.

This technology is patented in the United States Patent and Trademark Office (USPTO). The manufactured supplements based on this technology, due to their unique structure, enjoy better absorption rate than other available chelated and mineral supplements.

- ◆ Adding this supplement to diet maximizes the performance & production quality of herds and minimizes the incidence of diseases & mortalities.
- ◆ One kg of this supplement contains 2000mg (2000ppm) chelated selenium.
- ◆ This supplement is in powder form and mixable with feed/ concentrate. It is packaged in 20-kg bags.

Direction for Use

Consumption Dose for Livestock, Poultry, Aquatic Species and Companion Animals:

- 75g of this supplement should be mixed with every metric ton of feed to supply 0.15ppm selenium in diets.
- 150g of this supplement should be mixed with every metric ton of feed to supply 0.3ppm selenium in diets.
